

## Risks vs rewards- How does the location of Chile lead to both benefits and challenges for its people?

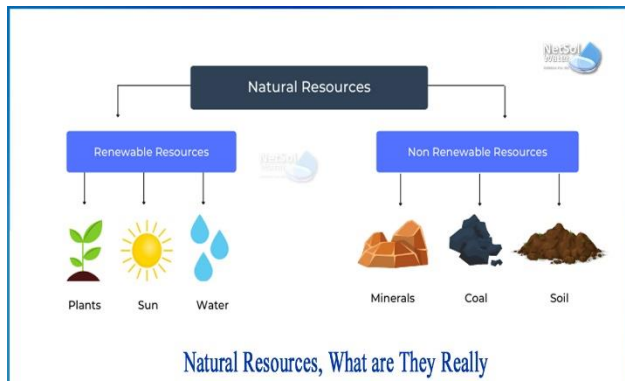

### Skills -I can

Use a Mercator map and globe to locate countries and continents and use latitude and longitude to locate a country.

Explain the difficulties faced by people living in a challenging area

Present structured and organised findings following synthesis of a variety of sources

### Vocabulary- I use

Tectonic plates	The outermost layer of the earth is called the crust and it is broken into large pieces called tectonic plates.
Equator	an imaginary line around the Earth that goes exactly midway between the North Pole and the South Pole and divides it into two equal halves, the Northern Hemisphere and the Southern Hemisphere.
Prime Meridian	the imaginary line that divides Earth into two equal parts: the Eastern Hemisphere and the Western Hemisphere.
Longitude and Latitude	a system of lines used to describe the location of any place on Earth.
Tropic of Capricorn	the parallel of latitude that is 23½ degrees south of the equator and is the southernmost latitude reached by the overhead sun.
Tropic of Cancer	the parallel of latitude that is 23½ degrees north of the equator and is the northernmost latitude reached by the overhead sun.
Polar Region	cover the top and bottom of planet Earth at the North and South Poles.
Natural resources	something that is found in nature and can be used by people.
Minerals	inorganic substances, meaning that they do not come from an animal or a plant.

Risks vs rewards- How does the location of Chile lead to both benefits and challenges for its people?

# Knowledge - I know

- I know about continents and major oceans.
- Use a Mercator map and globe to locate countries and continents.
- I know about tectonic plates.
- I know about hemispheres, latitude, longitude, the Equator, the Prime Meridian, the Tropics of Cancer and Capricorn, the Arctic and Antarctic circles.
- I know about some of the challenges facing countries in a continent.
- Use latitude and longitude to locate a country.
- I know where natural resources are found across the world.
