

## Year 6 Maths

Week beginning 14<sup>th</sup> April 2020

### Unit of Work: Ratio

This week's maths learning can be accessed here:

<https://whiterosemaths.com/homelearning/year-6/>

**Make sure that you click on Week 1**

**Each day, from Tuesday to Friday, watch the video and then work through the activity. The answer sheets are attached in case you would like to check your own answers.**

Tuesday – Week 1 Lesson 1

Wednesday – Week 1 Lesson 2

Thursday – Week 1 Lesson 3

Friday – Week 1 Lesson 4

You can print off the sheets and stick them in your maths book or otherwise write the answers neatly into your book. If you are copying into your book, write the title of the activity as your learning objective. If a question needs you to draw bicycles or cars, you are welcome to change them into crosses or circles or something else that is quicker and easier to draw!

If you would like to share your work, please e-mail a photo, scan or word.doc to my e-mail address by the end of the week. I will do my best to respond as quickly as possible.
