

School Council voice

'I would like to build some hedgehog hotels and bughouses to put around the grounds. We could do a competition between the different classes. Or with older years helping younger years.'

I like being on the school council because it makes me happy and excited to share ideas and be able to talk to Mr Funnel and other grown-ups about what we think'.

I would like to do more music as a class, like learning about rhythm or singing as a class. The school council could set up a code club.

Being on the school council means being responsible and representing other students.

I would like to have more sport events at school. I love sports day but I want to do it more than once a year.

I feel very proud to be on the school council and I am excited to share and come up with ideas on how to improve our school.

Being on the school council means a lot to me because I can help other children. It will be good to know how other children are feeling so I can talk to the teachers about it and how to help.

It is an honour to be on the school council and it is something I've wanted to do since year 2. I want to make everyone happy and feel positive when they are in school.

I would like the school to have a 'help the reception children club' where the older children could help them settle into school life, help them with their learning and help them make new friends.

I think more after school clubs will help children make friends and will help everyone feel happier.

When we go back to school, it would be lovely for the Year 6 children to give the new reception children a tour of the school. They could also introduce them to all the staff.

I am happy to be on the school council because I enjoy being able to help people, not just through making changes but also just by being a friend.

I think it would be lovely for the school council to set up a friend hub at break times in one of the classrooms where children can play board games and chat.
